

Draw your tracks
to create a pattern

How to print tracks?

Draw the pattern in the boxes to create
a pattern

Note down the page numbers to print
the tracks

Enter track number in the page field in
print dialog box. Ex: 2,2,3,12,15 etc.

Print at actual size. Do not scale

Cut along the dotted lines and paste
all pages together to create your pattern

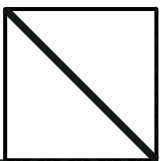

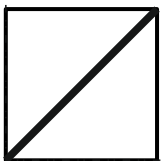

Place the line follower robot
over these tracks and have fun

Goto below link to download a copy of tracks or a single test track

https://veerobot.com/downloads/documents/LFR_test_track.pdf
https://veerobot.com/downloads/documents/LFR_tracks.pdf

*If Robot is not following the line, use the built-in trimmer pot
to adjust the sensor threshold
